

Our office is taking part in a research project called ExPAND. The goal is to expand choices for people with kidney disease.

Talk to a research coordinator to learn more.

Nelson Chen, Research Coordinator

Investigators

Dr. Andrew Bohmart

Dr. Jeffrey Silberzweig

Who can take part?

People who:

- Have chronic kidney disease
- Are at least 65 years old
- Have an eGFR < 30
- Have never had a kidney transplant
- Have never been on dialysis

How might it help me?

- It may help you think about making treatment decisions
- It may help other people with kidney disease

Would I get paid?

- People who complete all three surveys will receive \$75 as a thank you

What would I do?

- Take a 10-20 minute survey about making treatment decisions
- Take the survey again in 4 months
- Take the survey again in 9 months

How might it impact me?

- Your time is precious. Altogether, it will take 30-60 minutes of your time
- Thinking about hard choices might feel uncomfortable
